The MAILING DATE of this communication appe	ears on the cover sheet with the c	orrespondence address					
THE REPLY FILED 19 February, 2004, FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.							
PERIOD FOR REPLY [check either a) or b)]							
a) The period for reply expires <u>03</u> months from the mailing date of the final rejection. The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
1. A Notice of Appeal was filed on 18 May 2004. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.							
2. The proposed amendment(s) will not be entered because:							
(a) ☑ they raise new issues that would require further consideration and/or search (see NOTE below);							
(b) ⊠ they raise the issue of new matter (see Note below);							
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or							
(d) 🔲 they present additional claims without canceling a corresponding number of finally rejected claims.							
NOTE: See Continuation Sheet.

Continuation Sheet (PTOL-303)

Continuation of 2. NOTE: Applicants are reminded that they cannot, as a matter of right, amend any finally rejected claims, add new claims after a final rejection (see 37 C.F.R. 1.116) or reinstate previously canceled claims (see M.P.E.P. 714.13). The claims, if amended as proposed, would not avoid any of the rejections set forth in the last Office action, potentially raise the issue of new matter (i.e., a variant envelope having just the claimed amino acids (S63, E65 ...)), and present new issues requiring further consideration and searching. Perusal of the disclosure fails to provide adequate written support for the proposed claim limitations. The disclosure details the identification and characterization of a novel HIV-1 variant termed ELI. Figures 3E-1, -2, and F-1, describe an envelope amino acid comparison between LAV-ELI, -BRU, -MAL, and ARV-2. While the Env regions of these four isolates was aligned, it does not lead the skilled artisan to a variant Env having just the amino acids currently claimed. Applicants need to more clearly define the structural characteristics of the ELI variant Env. Applicants' are reminded that further examination of the application may be obtained by filing a request for continued examination pursuant to 37 C.F.R. 1.114.

Continuation of 5. does NOT place the application in condition for allowance because: Applicants' arguments are directed toward the proposed claim amendments, which have NOT been entered, and are therefore moot.
